

Tushar Wararkar

Buyer • Sourcing & Procurement Engineer — Chemicals, Oil & Gas

Mumbai, India • +91 8380839953 • twararkar8380@gmail.com • linkedin.com/in/tushar-wararkar • Portfolio

PROFESSIONAL SUMMARY

Chemical Engineer with 3.5 years in the oil, gas and petrochemical industry, including close to 3 years owning end-to-end chemical procurement across domestic and international markets. Runs the full buying cycle — requirement and specification capture, enquiry floating, techno-commercial evaluation of offers, vendor negotiation, order execution and delivery follow-up — alongside complete tender lifecycle ownership. Strong in vendor identification and development, market and technology sourcing, and procurement data analysis for cost control and decision support. Track record of delivering materials and projects on specification, on budget and on time for clients including OIL India.

CORE COMPETENCIES

- **Chemical & Category Procurement** — domestic and international sourcing to cost, quality and delivery targets
- **Tender Lifecycle Management** — tender documentation, enquiry floating, bid evaluation, award and execution
- **Vendor Identification, Evaluation & Development** — capability assessment, follow-up and relationship management
- **Techno-Commercial Evaluation & Negotiation** — offer comparison, cost benchmarking and savings identification
- **Purchase Order Execution & Expediting** — order release and delivery follow-up against targeted dates
- **Logistics & Supply Chain Coordination** — inbound movement, documentation and material availability at site
- **Market Research & Technology Sourcing** — supplier scouting and compliance with international standards
- **Procurement MIS & Data Analysis** — tender, procurement and project reporting for decision support
- **Cross-Functional & Client Coordination** — end users, engineering, vendors and client officers

PROFESSIONAL EXPERIENCE

Chemical Engineer — Procurement & Tendering

Suvira Energy • Mumbai, India

Sep 2023 – Present

- Manage end-to-end chemical procurement across domestic and international markets, sourcing to required specification, quality standard and delivery timeline at cost-effective evaluated price.
- Own the complete tendering lifecycle — tender documentation, enquiry floating, techno-commercial evaluation of offers, and execution of finalised orders.
- Review client and project requirements to capture technical specifications, quantities, budgets and delivery timelines before initiating sourcing and tendering.
- Identify, evaluate and develop vendors and technology providers through structured market research, assessing capability against technical, quality and commercial criteria.
- Negotiate commercial terms — price, payment and delivery — and coordinate logistics to ensure on-time arrival of materials at project sites.
- Maintain and analyse tender, procurement and project data to support decision-making, cost control and operational efficiency.
- Lead multiple projects as Project Engineer, coordinating cross-functional teams, vendors and client stakeholders to deliver on time.
- Represent Suvira Energy at major industry conferences (IOGCA, ADIPEC), supporting vendor networking, market intelligence and business development.
- Support sustainability initiatives in energy efficiency and green solutions; played a key role in setting up an in-house chemical laboratory for testing and R&D.

Process Engineer

Aug 2022 – Mar 2023

Instron Technologies LLP

- Executed process engineering assignments on DRDO-sponsored projects, translating user requirements into designs, specifications and Detailed Project Reports (DPRs).
- Conducted literature reviews and technical evaluations to shortlist chemical compounds against safety, performance and handling criteria.
- Led device testing under varied operating conditions, implemented design enhancements and produced mechanical drafts in AutoCAD and SolidWorks.

KEY PROJECTS

- **Viscosity Reduction — OIL India** (*Project Engineer, Suvira Energy*) — Led a five-member team from client meetings and tendering through on-site execution, achieving a 60% reduction in crude viscosity; owned vendor relations, logistics and material availability at site.
- **Tire Pyrolysis Oil (TPO) & rCB Enhancement** (*Chemical Engineer, Suvira Energy*) — Researched and evaluated global technology providers and manufacturers against international standards; coordinating export of optimised products to leading petrochemical companies.

- **Portable Desalination Device — DRDO** (*Process Engineer, Instron Technologies*)
— Contributed to design and implementation of a portable seawater desalination unit for military emergency use, and led testing across operating conditions.
- **Smoke Shell Chemical Composition — DRDO** (*Process Engineer, Instron Technologies*) —
Performed literature-based compound selection and controlled glove-box experiments; prepared DPRs with trial outcomes and recommendations.

EDUCATION

MBA, Logistics & Supply Chain Management (pursuing) Aug 2025 – Aug 2027
MIT School of Distance Education • Distance learning, alongside full-time role

B.Tech, Chemical Engineering Jun 2019 – Jun 2023
MIT World Peace University, Pune • CGPA 8.12 / 10
Relevant coursework: Computational Fluid Dynamics; Piping & Instrumentation Diagrams (P&ID).

CERTIFICATIONS

- **Strategic Sourcing** — Rutgers, the State University of New Jersey (Coursera) • May 2026
- **Supplier Management** — Rutgers, the State University of New Jersey (Coursera)
 - Jul 2026
- **Procurement Basics** — Rutgers, the State University of New Jersey (Coursera)
 - May 2026
- **Procurement & Sourcing Introduction** — Rutgers, the State University of New Jersey (Coursera) • May 2026
- **Global Logistics & Supply Chain Management** • Apr 2026

SKILLS & ADDITIONAL INFORMATION

Software & Tools: Microsoft Excel, data analytics and AI tools, AutoCAD, SOLIDWORKS, MATLAB, ChemCAD, Aspen HYSYS, DWSIM

Languages: English, Hindi, Marathi
